Subject: MLPAComments: Comments on Monterey Underwater Park

I'd like to ask for my comments to be included in the consideration of protected marine environments in Monterey.

Please protect the area from the Breakwater to Lover's Point (I believe the proposal is called "Package Two" by your department). It is vitally important to include these heavily used areas in any protection scheme, because fish populations are proven to be at risk in that area.

Thank you for your efforts to protect the Breakwater to Lover's Point.
